Subject: RE: POPRC-16: Intersessional working groups sign up by 1 Feb 2021
Attachments: Annex II_Composition of intersessional working group.docx

Dear POPRC-16 participants,

Thank you for your responses to sign up for the intersessional working groups.

Please find attached the list of intersessional working group members compiled based on the responses received by 1 Feb 2021. If you sent me an email before 1 Feb 2021 but do not see your name listed, or your name is not listed correctly, please let me know by **5 Feb 2021**. The list will be included in the report of the POPRC-16 meeting (UNEP/POPS/POPRC.16/9).

If you have not responded yet but would like to join the group, please let me know anytime. Your name will not appear in the meeting report, but you can still participate in the intersessional work.

Kind regards,
Kei

Importance: High

Dear POPRC-16 participants,

Many thanks to those who have already responded to me to indicate the intersessional working groups to join.

All POPRC members are strongly encouraged to join at least one intersessional working group. You can join as many groups as you wish.

If you have not done so, please reply to this email by **1 Feb 2021** to indicate the intersessional working group that you wish to follow.

I would like to take this opportunity to share with you the newly published "**Pocket Guide for Effective Participation in the POPs Review Committee under the Stockholm Convention**", thanks to the generous financial support by the Government of Germany. This is based on the pocket guide published in 2009. Please also find attached the Handbook for Effective Participation (2009). Other POPRC related guidance documents are available on the Convention website: <http://chm.pops.int/TheConvention/POPsReviewCommittee/Guidance/tabid/345/Default.aspx>

Kind regards,
Kei

Subject: POPRC-16: Intersessional working groups sign up by 1 Feb 2021
Importance: High

Dear POPRC-16 participants,

Thank you very much for your participation at the POPRC-16 meeting (11-16 January 2021).

The Committee established the following intersessional working groups:

- 1) **UV-328** (to develop the draft risk profile)
- 2) **Dechlorane Plus** (to revise the draft risk profile)
- 3) **Methoxychlor** (to develop the draft risk management evaluation)
- 4) **Long-range environmental transport** (to develop draft guidance for consideration on LRTP)

As announced in plenary on Saturday last week, all POPRC-16 participants are invited to participate in any of the intersessional working groups.

Please reply to this email by **1 February 2021** to indicate in which intersessional working groups you would like to participate as well as the email address that you wish to have included in the mailing list of the relevant working groups.

If your response is received before 1 February 2021, your name will appear in the composition of intersessional working groups in annex II to the meeting report (UNEP/POPS/POPRC.16/9), and your email address will be included in the mailing list to participate in the intersessional work.

After the deadline, your name will NOT appear in the meeting report but your email address can still be included in the mailing list.

If any of your colleagues wish to participate in the intersessional working groups, please indicate their names, organizations and email addresses. Upon invitation by one of the POPRC-16 participants, I can include additional email addresses in the mailing list.

Please do not hesitate to contact me if you have any questions regarding POPRC-16 and its intersessional work.

Best regards,
Kei
